

KOVONAX

A series of thin, wavy lines in a light purple or magenta color, flowing horizontally across the middle of the page. The lines are composed of many individual strands that create a sense of movement and depth.

Kovonax – the art of metalworking

Our material is metal and our driving force is craftsmanship and modern technology. We have been producing bent metal furniture in the middle of the Hostýn Mountains for more than a hundred years. We develop our own products and continue the tradition of Robert Slezák's manufactory, founded in 1908.

Kovonax is a modern manufacturing company with a strong position in the market of metal furniture, metal surface treatments and metalworking activities. We produce metal furniture: mainly chairs, swivel chairs, armchairs, dining and conference tables, hospital and nursing beds. We carry out custom-made production of metal furniture for healthcare, nursing, education and the military.

You can find Kovonax products in many cities in the Czech and Slovak Republics, the European Union and Ukraine.

In 2013, we proudly revived the premium brand Slezák, designed for lovers of functionalist furniture, elegant lines, and quality design (www.slezak-czech.cz).

Slezák

History

The production of metal furniture in Bystřice pod Hostýnem dates back to 1908. As one of the first manufacturers, Robert Slezák began to provide the surface of products with a galvanic layer consisting of copper, nickel and chrome in 1911. Since 1913, the production of metal chairs and brass furniture began,

especially beds, tables and chairs according to his own designs in a combination of metal and wood. The original Slezák plants were part of the Kovona company after 1948, and since 1992 it has been called Kovonax.

Our values

- Our own production, based on modern technologies and production program
- We are a manufacturer from the initial processing of the material to the final products
- Thanks to the maximum quality, we provide a five-year warranty on all products
- We have safe and durable products for schools, hospitals and care facilities
- We have valid certifications and attestations for the healthcare sector within the framework of Czech and European standards

Tables

Demont

V4235

- dining table 800 x 800 mm
- table top - laminate, shade according to the swatch
- table top thickness 18 mm, ABS edges 2 mm
- metal frame in RAL
- table frame profile 40 x 20 mm
- table leg profile 30 x 30 mm
- plastic feet

Total height	750 mm
Table dimensions	800 x 800 mm
Profile cross-section	30 x 30 mm
Weight	17 - 30 kg

Optional modifications according to the sample book:
Possible table dimensions: 800 x 800, 1000, 1200, 1400, 1600 mm.

Demont Plus

V4445

- dining table 800 x 800 mm
- table top - laminate, shade according to the swatch
- table top thickness 18 mm, ABS edges 2 mm
- table frame in RAL 9006, chrome table legs
- table frame profile 40 x 20 mm
- table leg tube 35 mm
- plastic feet

Total height	750 mm
Table dimensions	800 x 800 mm
Tube diameter	ø 35 mm
Weight	17 - 30 kg

Optional modifications according to the sample book:
Possible table dimensions: 800 x 800, 1000, 1200, 1400, 1600 mm.

Olina S

V015DAA

- dining table 800 x 800 mm
- table top - laminate, shade according to the swatch
- table top thickness 25 mm, ABS edges 2 mm
- metal chrome legs
- plastic feet

Total height	750 mm
Table dimensions	800 x 800 mm
Tube diameter	ø 35 mm
Weight	17 kg

Michal

V040DAA

- dining table 800 x 1300 mm
- table top - laminate, shade according to the swatch
- table top thickness 25 mm, ABS edges 2 mm
- metal chrome frame
- plastic rectification glides
- the tabletop is equipped with a mechanism that allows the tabletop to be attached to the base and removed again without the use of tools
- tabletop layout for better storage

Total height	725 mm
Table dimensions	800 x 1300 mm
Tube diameter	ø 35 mm
Weight	28 kg

Klaptisch

V016DAA

- table 700 x 1200 mm with the possibility of folding legs
- table top - laminate, shade according to the swatch
- table top thickness 25 mm, ABS edges 2 mm
- metal chrome frame
- plastic feet

Total height	720 mm
Table dimensions	700 x 1200 mm
Tube diameter	ø 40 mm
Weight	28 kg

Saxi

V035DAA

- a round table with a solid metal structure
- laminate table top - shade according to the sample book
- plate thickness 18 mm, ABS edges 2 mm
- chromed metal base
- plastic feet

Total height	750 mm
Table dimensions	ø 700 mm
Total width	700 mm
Tube diameter	ø 28 mm
Weight	12 kg

Riky

V038DAA

- dining table 800 x 1300 mm
- table top - laminate, shade according to the swatch
- table top thickness 25 mm, ABS edges 2 mm
- metal frame in RAL
- plastic feet

Total height	750 mm
Table dimensions	800 x 1300 mm
Profile cross-section	60 x 30 mm
Weight	30 kg

Miky

V039DAA

- coffee table 600 x 1200 mm
- table top - laminate, shade according to the swatch
- table top thickness 25 mm, ABS edges 2 mm
- metal frame in RAL
- plastic feet

Total height	560 mm
Table dimensions	600 x 1200 mm
Profile cross-section	60 x 30 mm
Weight	25 kg

Nursing beds

Sabina VI

V036EBN

- mechanically operated bed
- 4-section loading area made of welded steel mesh
- positioning of the head panel by a gas spring, foot panel by a rastomat
- metal parts RAL according to the swatch
- bed headboards made of LTD beech, thickness 25mm
- barriers made of MDF, thickness 25mm in the same shade
- bed equipped with castors, diameter 100 mm, with brake

Optional accessories:
anti-decubitus mattress – passive,
lifting pole with plastic triangular
holder, fixed infusion stand, choice
of bed headboard shape, 2-section
loading area

Total height	920 mm
Height of the loading area	500 mm
External dimension of the bed	1050 x 2140 mm
Dimension of the loading area	900 x 2000 mm
Load capacity	190 kg
Weight	75 kg

Sabina VI - hydraulic bed

V036EBN

- mechanically operated bed
- 4-section loading area made of welded steel mesh
- adjustment of the height of the loading area by a hydraulic jack with scissor lift
- positioning of the head panel and foot panel with a rastomat
- metal parts RAL according to the swatch
- bed headboards made of LTD beech, thickness 25mm
- barriers made of MDF, thickness 25mm in the same shade
- bed equipped with castors, diameter 100 mm, with brake
